

# Divine Dance Arts Highlights

**Philosophy-** Our philosophy is to provide a learning environment that teaches students about proper technique, performance showmanship, and outstanding confidence. We encourage students to learn dance vocabulary as well as how to execute various steps and perform a variety of dance routines. In order to maintain these goals, our instructors give positive encouragement and show individual attention while maintaining a discipline and educational class environment.

**Performances** – Divine Dance Arts offers formal productions every other year. Students perform informal recitals on the years in between. Students may audition for feature solos, duets, or trios for formal productions.

**Competition** – Our studio is proud to give dancers the opportunity to compete in competitions and be a part of the Divine Dance Competition Team. We attend five local spring dance competitions with a sixth optional competition. Dancers may also perform their competition routines at the end of informal year recitals. For more information, please see the front office.
